

Waddicar Rise

Melling, Liverpool

Rowland
Feel at home

Independently owned and dedicated to the creation of aspirational developments since 1993, Rowland represents excellence in house design, construction and the creation of thriving communities.

Rowland is committed to creating stylish and beautiful new homes that will be a lasting legacy, in a flourishing community at Waddicar Rise. Developing a sustainable environment will allow everyone the space, freedom, privacy and comfort of their own home and make Waddicar Rise a special place to live now and for future generations.

Feel at home

Welcome to Waddicar Rise

Waddicar Rise is a prestigious development of quality two, three, four and five bedroom new homes and sits in balance amidst this thriving village community.

Rowland is committed to creating a popular and vibrant environment, that embraces the local heritage, as well as serving the local residents by providing a select and distinctive range of mews style properties, along with semi-detached and detached homes.

Waddicar Rise

Melling

Less than nine miles from Liverpool city centre, the village of Melling is a traditional community whose roots go as far back as Anglo-Saxon times. Nowadays, Melling is a thriving village community with several shops, a primary school and a number of excellent pubs.

In addition, Melling Tithe Barn is a popular community centre, that hosts a wide range of events and concerts.

Conveniently situated close to both the M58 and M57, Melling is a little under nine miles from the heart of the historic city of Liverpool, which is rich in nautical and musical heritage, as well as featuring many museums and galleries. Liverpool also boasts an impressive array of shops, bars, restaurants and traditional pubs, as well as a vibrant city centre pedestrian area and riverside tourist attractions such as the Albert Dock and Maritime Museum.

Closer to home, nearby Aintree (just three miles from Melling) offers a major retail park, as well as a supermarket,

cinema and other leisure facilities. For days out, there are delightful local walks along the Leeds & Liverpool Canal, which passes through Melling village, whilst a little further afield, the Lancashire coast features the wonderful sand dunes and red squirrel reserve at Formby, as well as genteel Southport – and, further north, both Lytham St. Annes and Blackpool. Local motorways close to Melling link with the north-south M6, for fast access to Manchester, the Lake District, the Yorkshire Dales, the Trough of Bowland and the picturesque Ribble Valley.

SPACIOUS INTERIOR LAYOUTS

have been designed to allow for a free flowing movement between living areas, dining spaces and kitchens.

Offering a wide choice of high quality family homes

With a varied option of house styles on the development, the overall feel is of a community that has grown up over time, with a range of different architectural styles and features.

Each home benefits from a private garden to the rear, with spaces for parking at the front and the majority of properties having a single or detached garage.

The interiors of the homes at Waddicar Rise display a dedication to contemporary design styling with the option to personalise your home (dependent on build stage). Every home benefits from quality fixtures and fittings, with kitchens containing the very latest brand-name integral appliances. Bathrooms benefit from designer sanitaryware, elegant tiling and a high specification.

Whilst light and airy living areas boast natural light and modern open plan features, making the maximum use of space.

Waddicar Rise

Warranty & Sustainability

A NHBC ten-year warranty on your Rowland home will ensure that you can sleep comfortably with the knowledge that along with the high specification this home offers, it also offers a reassuringly high quality of build.

In addition:

- Your new Rowland home addresses a number of sustainable principles, by improved build techniques and utilising selected quality materials where possible, from sustainable sources. The impact on the environment and climate change has been reduced whilst increasing the performance of your home.
- Water wastage has significantly been reduced by installing cisterns and showers that efficiently reduce flow rates.
- Waste management system implemented during construction to reduce waste produced and promote recycling materials where possible.
